NORDIC® SIMULATORS

Smart And Easy Learning

FIXED AND MOBILE RECORDING SOLUTIONS

NORDIC RECORDER

NORDIC RECMOBILE

Simulation-based learning

NORDIC RECORDER

FIXED RECORDING SOLUTION

Video is a proven tool to better educate, train, connect and protect organizations everywhere.

Nordic Recorder is run by the Nordic Simulators' easy-to-use software and has no annual license fees.

Our high-quality, extremely easy-to-use and versatile recording solutions have been developed together with healthcare professionals.

Nordic Recorder uses high-quality HD digital cameras, some with built-in microphones.

Cameras have infrared lights and therefore you are able to record simulation trainings in the dark. Infrared lights are useful when practicing in special conditions such as power failures and military trainings. You only need one power cable to run cameras.

The chosen camera automatically turns into wireless when disconnected from the cable and the Smart Battery switched on. Attach your wireless camera easily into different places with a built-in magnet.

NORDIC RECMOBILE

MOBILE RECORDING SOLUTION

Record your simulation trainings anywhere by using Nordic RecMobile which is a handy solution packed in a small case with wheels.

Nordic RecMobile is run by the Nordic Simulators' easy-to-use software and has no annual license fees. Three cameras with magnets are included into the delivery.

Our high-quality, extremely easy-to-use and versatile recording solutions have been developed together with healthcare professionals. Nordic RecMobile is up and running in less than 5 minutes.

Nordic RecMobile uses high-end, high-definition digital HD cameras with built-in microphones. Cameras have infrared lights and therefore you are able to record simulation trainings in the dark. Infrared lights are useful when practicing in special conditions such as power failures and military trainings.

Nordic Smart Battery make cameras wireless. Attach your wireless camera easily into different places with a built-in magnet.
